

# PhageMatch

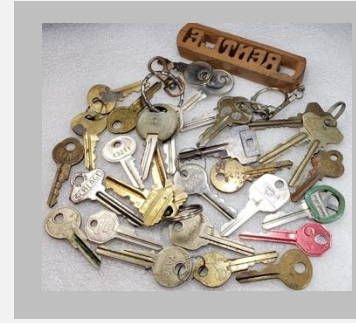

The Algorithm Behind  
the Cure.

---

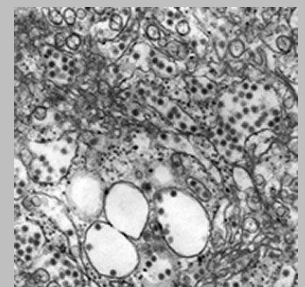

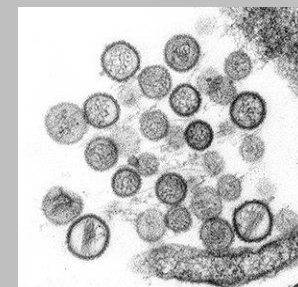

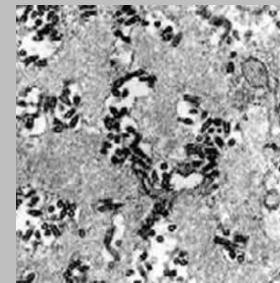

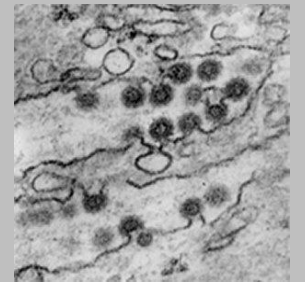

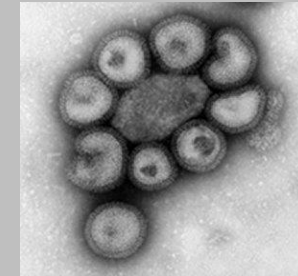

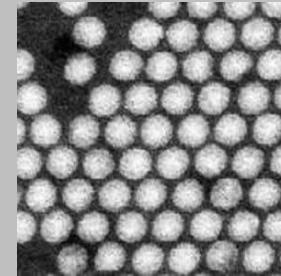

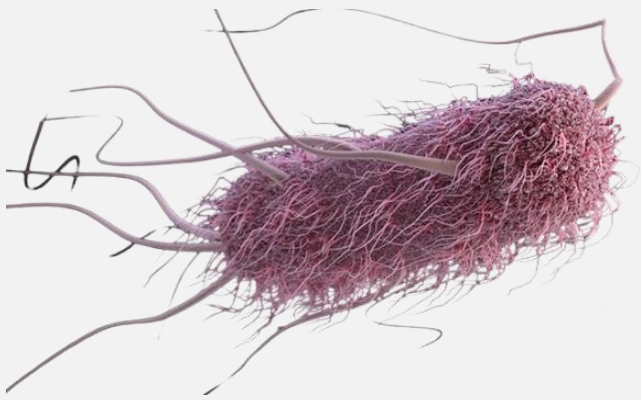

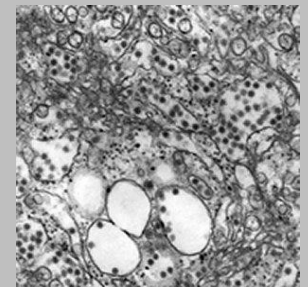

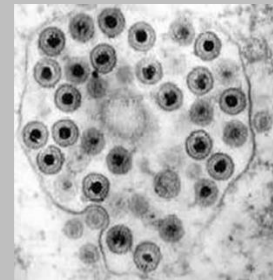

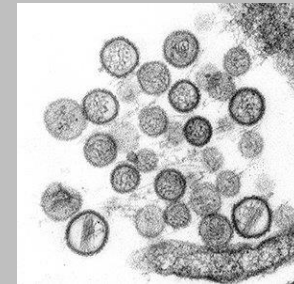

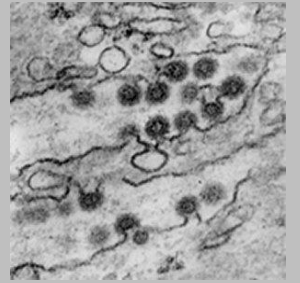

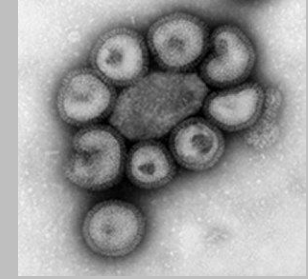

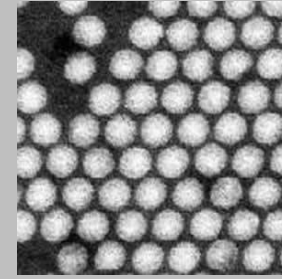

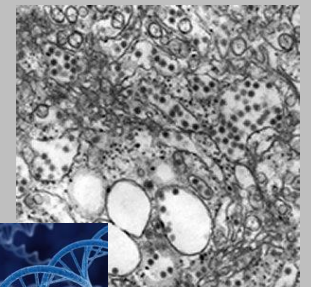

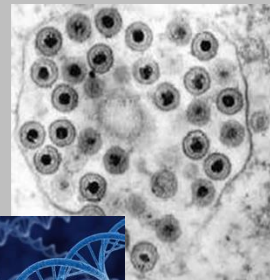

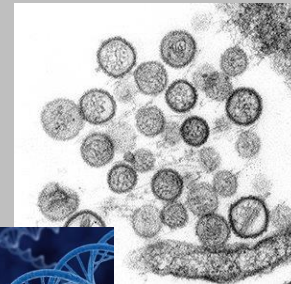

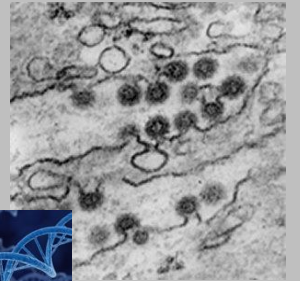

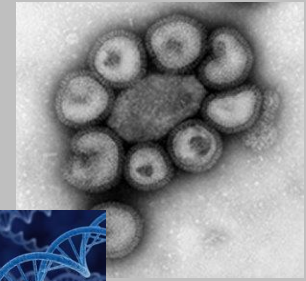

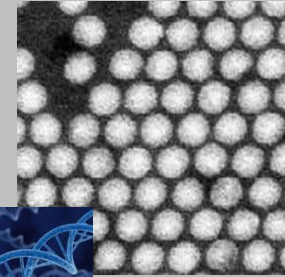

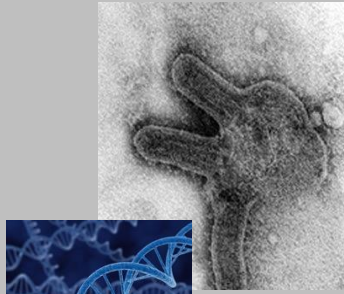

**Which virus can kill the bacterium?**

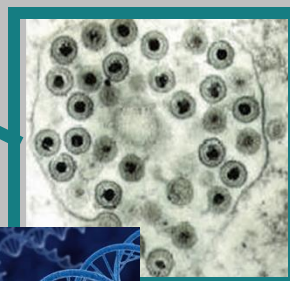

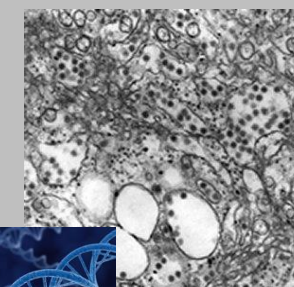

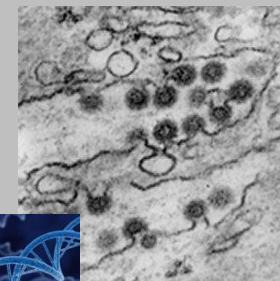

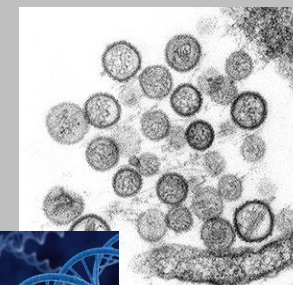

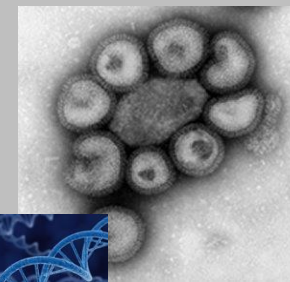

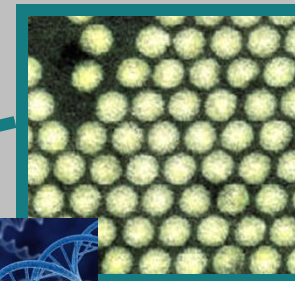

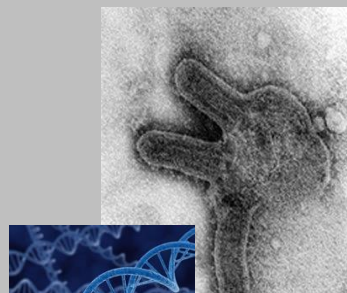

...and thousands more...

...and thousands more...

...and thousands more...

# Cost of finding relevant virus

Current method  
(try randomly)

**\$300K**  
**8 months**

Our approach  
(Prefiltering)

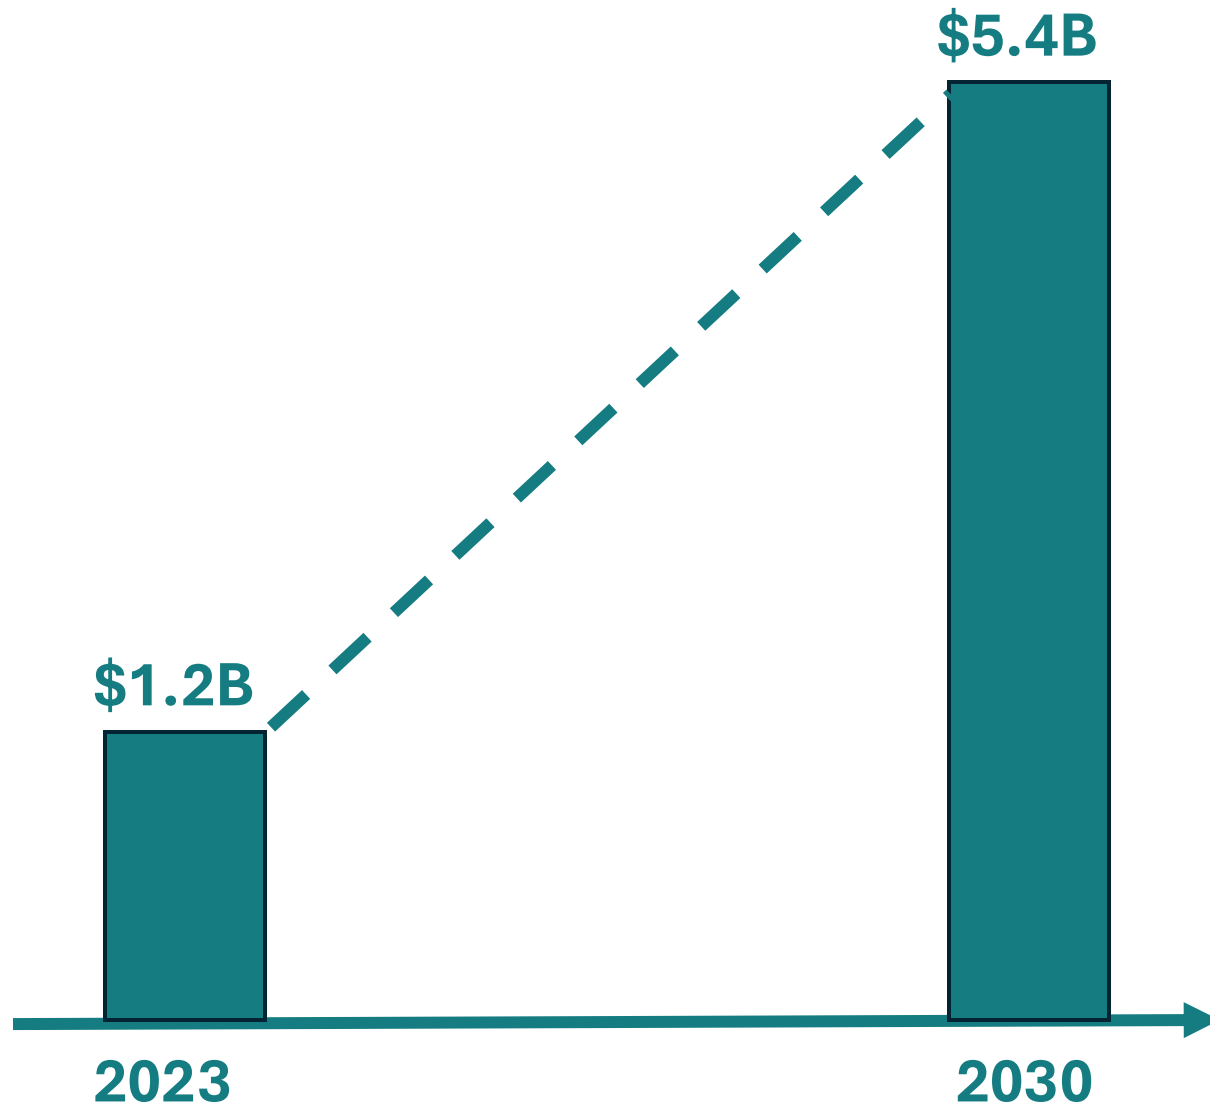

**\$10K**  
**2 days**

Live Demo

## Market size phage (virus) therapy

## Competitors

# Pricing & Potential Customers

## Basic Plan

\$500/month

- 5 DNA sequences
- Limited phage library
- Basic ML insights

## Pro Plan

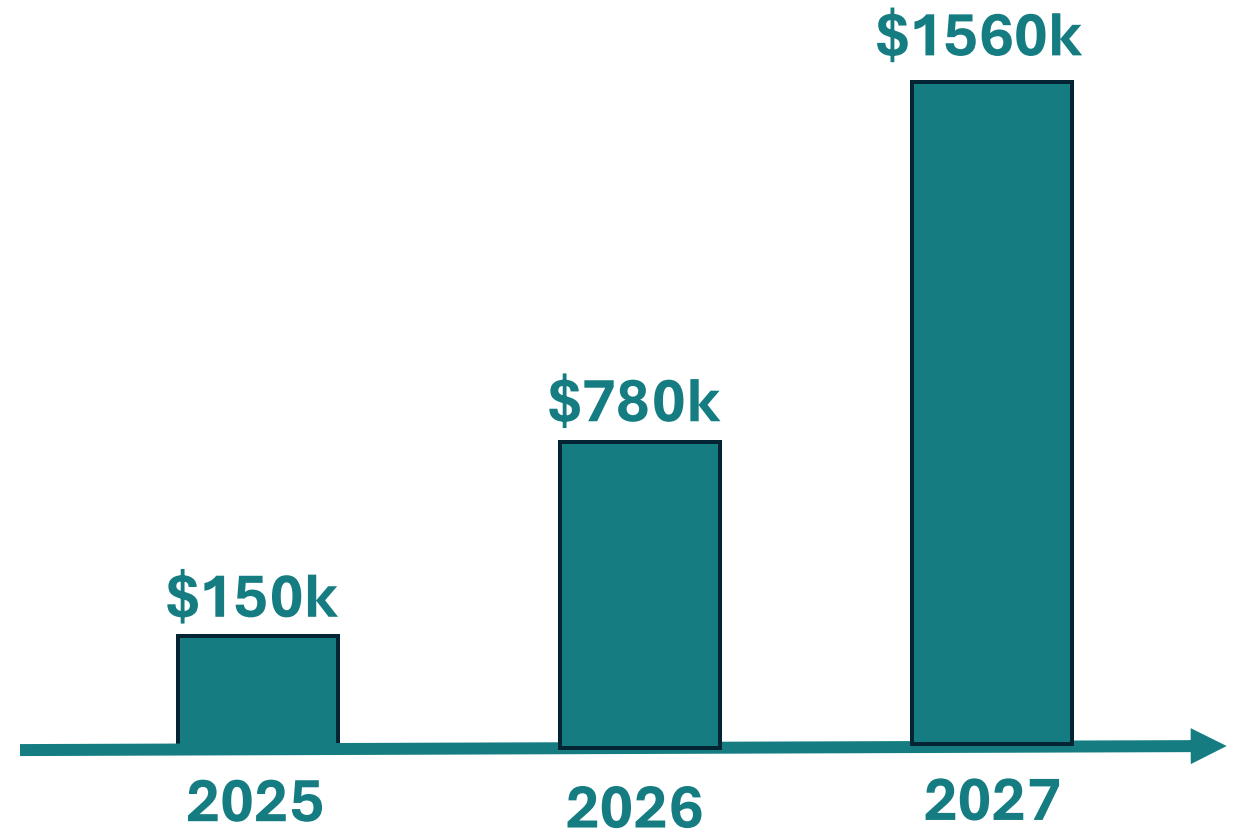

\$1.500/month

- 20 DNA sequences
- Expanded phage library
- High-accuracy insights
- Email support

## Enterprise Plan

Custom pricing

- Unlimited sequences
- Custom pipelines
- Account manager
